INDEX OF SUBJECTS AND AUTHORS

Acid, trichloracetic, The treatment of laryngeal tuberculosis with, 636
Acids, fatty, unsaturated, The influence of, on the virulence of tubercle bacilli, 362
Acoustics, pulmonary, Studies on, 711
Active principle of tuberculin, The chemical composition of the, 370
Acute onsets in pulmonary tuberculosis, dangers of insidious and, Some, 557
—— subapical versus insidious apical tuberculosis, 305
Adults, Tuberculous infection among, 532
Aged, Pulmonary tuberculosis in the, 568
——, tuberculosis among, The significance of, 541
Allergy, tuberculo-, tissue, in skin transplants, A study of, 127
Anatomical Studies of intestinal tuberculosis, Comparative radiographic and, 77
ANDERSON, H. R., AND MYERS, J. A. The significance of tuberculosis among the aged, 541
Apical tuberculosis, Acute subapical versus insidious, 305
Arneth, Modified, and Schilling blood differential counts in tuberculosis, 265
Artificial pneumothorax, pleural effusions in, prevention of, Calcium chloride in the, 640
Asthma, Bronchial, and pulmonary tuberculosis, 644
Attack on tuberculosis, A plan of, 702
Attempt to grow tubercle bacilli in gross tissues, An, 252
Auxiliary in the treatment of tuberculosis, Dental service as an, 327

Bacilli, tubercle, An attempt to grow, in gross tissues, 252
——, ——, virulence of, The influence of unsaturated fatty acids on the, 362
Bacillus, tubercle, growth of, The influence of surface tension on the, 354
——, ——, strain H37, lipoid fractions of, The reactions of the tissues to the, 290
BAITSELL, GEORGE A., AND MASON, KARL E. The origin of the fibrous tissue arising in the testis of the guinea pig following experimental tuberculosis, 593
BANYAI, ANDREW L. Pulmonary tuberculosis in the aged, 568
BASSINGTHWAIGHTE, M. F., NORWICH, A. C., AND MACLENNAN, M. F. The inhibitive reaction of Caulfeild, 142
BISHOP, F. W., MORTON, J. J., LYMAN, R. S., AND METILDI, P. F. Studies on pulmonary acoustics. III. The transmission of vibrations from percussion along ribs, 711
Blood differential counts in tuberculosis, Modified Arneth and Schilling, 265
Blood-sedimentation test as a routine procedure in the tuberculosis dispensary, The, 347
BOHART, RUBY M. A study of sensitization in experimental tuberculosis, 383
BOONSHAFT, LOUIS. Calcium chloride in the prevention of pleural effusions in artificial pneumothorax, 640
Boys in their teens, Tuberculosis among girls and, 509
BREUER, MILES J. Thoughts on the "early case" of tuberculosis, 151
BROCK, BENJAMIN L. The rôle of the leucocytes in tuberculosis, 745
Bronchial asthma and pulmonary tuberculosis, 644
BROWN, M. H., MAGNER, WILLIAM, AND CAULFEILD, A. H. W. A study of tissue tuberculo-allergy in skin transplants, 127
BRYANT, JAMES CLUTE. Focal infections among the tuberculous simulating tuberculous disease, 653

Calcium chloride in the prevention of pleural effusions in artificial pneumothorax, 640
CAPUANO, GIAN FRANCO. Hyposulphite of soda in sanocrysin, 335
Carcinoma of the lung, Primary, 1

CAULFEILD, A. H. W., BROWN, M. H., AND MAGNER, WILLIAM. A study of tissue tuberculo-allergy in skin transplants, 127
Caulfeild, inhibitive reaction of, The, 142
Changes, postural, The influence of, on râles, 659
Chemical composition of the active principle of tuberculin, The, 370
Childhood, Tuberculous infection in, 479
Children, school, Tuberculous infection in, 183
——, tuberculosis in, "Closed," 686
Circulation of the skin, Diminution in the, as a factor in decreasing the cutaneous tuberculin reaction, 669
Clinical findings in tuberculosis, A correlation of the leucocyte interpretation of Medlar with, 786
—— value of the monocyte count in pulmonary tuberculosis, The, 764
"Closed" tuberculosis in children, 686
Codliver oil and tomato juice, The treatment of intestinal tuberculosis with, 627
COHEN, LOUIS, AND CUTLER, JACOB W. The blood-sedimentation test as a routine procedure in the tuberculosis dispensary, 347
Colds, The influence of, on pulmonary tuberculosis in patients undergoing treatment, 664
Comparative radiographic and anatomical studies of intestinal tuberculosis, 77
Complex, primary, of tuberculosis, intermediate histology of, The, 295
Composition, chemical, of the active principle of tuberculin, The, 370
COOPER, FRANK B. The influence of surface tension on the growth of the tubercle bacillus, 354
CORPER, H. J. An attempt to grow tubercle bacilli in gross tissues, 252
Correlation of the leucocyte interpretation of Medlar with clinical findings in tuberculosis, A, 786
Costa reaction, The, 684
Count, monocyte, in pulmonary tuberculosis, The clinical value of the, 764
Counts, blood differential, Modified Arneth and Schilling, in tuberculosis, 265
Cutaneous tuberculin reaction, Diminution in the circulation of the skin as a factor in decreasing the, 669
CUTLER, JACOB W., AND COHEN, LOUIS. The blood-sedimentation test as a routine procedure in the tuberculosis dispensary, 347

Dangers of insidious and acute onsets in pulmonary tuberculosis, Some, 557
Decreasing the cutaneous tuberculin reaction, Diminution in the circulation of the skin as a factor in, 669
Dental service as an auxiliary in the treatment of tuberculosis, 327
Diagnosis, early, of tuberculosis, The, 159
Diets, rachitic, Effect of, on experimental tuberculosis, 102, 115
Differential counts, blood, in tuberculosis, Modified Arneth and Schilling, 265
Diminution in the circulation of the skin as a factor in decreasing the cutaneous tuberculin reaction, 669
Disappearance of scrofula, The, 195
Disease, tuberculous, Focal infections among the tuberculous simulating, 653
Dispensary, tuberculosis, The blood-sedimentation test as a routine procedure in the, 347
DOAN, C. A., FORKNER, C. E., AND SABIN, FLORENCE R. The reactions of the tissues to the lipoid fractions of the tubercle bacillus strain H37, 290
DOUGLAS, BRUCE H., AND PINNER, MAX. Acute subapical versus insidious apical tuberculosis, 305
DWORSKI, MORRIS, AND SOPER, WILLARD B. Experimental tuberculous meningitis in rabbits. II. The protective action of heat-killed and living tubercle bacilli, 209

"Early case" of tuberculosis, Thoughts on the, 151
— diagnosis of tuberculosis, The, 159
EDWARDS, H. R. The tuberculosis program in New Haven, 233
Effect of rachitic diets on experimental tuberculosis, 102, 115

Effusions, pleural, in artificial pneumothorax, prevention of, Calcium chloride in the, 640
Emphysema, Spontaneous interstitial, in pulmonary tuberculosis, 579
EVANS, WILLIAM A., AND LEUCUTIA, T. The roentgen-ray treatment of intrathoracic tumors, 70
Experimental tuberculosis by intracerebral inoculation, 400
—— ——, Effect of rachitic diets on, 102, 115
—— ——, sensitization in, A study of, 383
—— ——, The origin of the fibrous tissue arising in the testis of the guinea pig following, 593
—— tuberculous meningitis in rabbits, 209

Fatty acids, unsaturated, The influence of, on the virulence of tubercle bacilli, 362
FELDMAN, WILLIAM H. Experimental tuberculosis by intracerebral inoculation, 400
FENGER, E., MATTILL, P. M., AND PHELAN, E. Tuberculous infection in school children, 183
Fibrous tissue arising in the testis of the guinea pig following experimental tuberculosis, The origin of the, 593
Films, X-ray, A system of reading, for use in sanatoria, 811
FINNER, LUCY L. The clinical value of the monocyte count in pulmonary tuberculosis, 764
FLANNAGAN, J. E. K. The influence of postural changes on râles, 659
Focal infections among the tuberculous simulating tuberculous disease, 653
FORKNER, C. E., SABIN, FLORENCE R., AND DOAN, C. A. The reactions of the tissues to the lipoid fractions of the tubercle bacillus strain H37, 290
FOSTER, ALLYN, JR. The intermediate histology of the primary complex of tuberculosis, 295
FOX, DANIEL S., AND REICH, WILLIAM W. The mycology of sputum, 246
Fractions, lipoid, of the tubercle bacillus strain H37, The reaction of the tissues to the, 290

GILLETT, HENRY W. Dental service as an auxiliary in the treatment of tuberculosis, 327
Girls and boys in their teens, Tuberculosis among, 509
GOODALE, RAYMOND H., AND KRISCHNER, HAROLD. Racial tuberculosis in Syria, 223
GRANT, AGNES H. The effect of rachitic diets on experimental tuberculosis, 102, 115
Gross tissues, An attempt to grow tubercle bacilli in, 252
Grow tubercle bacilli in gross tissues, An attempt to, 252
Growth of the tubercle bacillus, The influence of surface tension on the, 354
Guinea pig, fibrous tissue arising in the testis of the, following experimental tuberculosis, The origin of the, 593

HARKAVY, JOSEPH, AND HEBALD, SELIAN. Bronchial asthma and pulmonary tuberculosis, 644
HEBALD, SELIAN, AND HARKAVY, JOSEPH. Bronchial asthma and pulmonary tuberculosis, 644
HEISE, FRED H. The influence of colds on pulmonary tuberculosis in patients undergoing treatment, 664
Histology of the primary complex of tuberculosis, the intermediate, 295
Histories, Post-sanatorium, of tuberculosis cases, 691
H37, tubercle bacillus strain, lipoid fractions of, The reactions of the tissues to the, 290
Hyposulphite of soda in sanocrysin, 335

Infancy, Tuberculous infection in, 423
Infection, Tuberculous, among adults, 532
——, ——, in childhood, 479
——, ——, —— infancy, 423
——, ——, —— school children, 183
——, ——, trend of, The, 818
Infections, Focal, among the tuberculous, simulating tuberculous disease, 653
Influence of colds on pulmonary tuberculosis in patients undergoing treatment, The, 664
—— —— postural changes on râles, The, 659

Influence of surface tension on the growth of the tubercle bacillus, The, 354
—— —— unsaturated fatty acids on the virulence of tubercle bacilli, The, 362
Inhibitive reaction of Caulfeild, The, 142
Inoculation, intracerebral, Experimental tuberculosis by, 400
Insidious and acute onsets in pulmonary tuberculosis, dangers of, Some, 557
—— apical tuberculosis, Acute subapical versus, 305
Intermediate histology of the primary complex of tuberculosis, The, 295
Interstitial emphysema, Spontaneous, in pulmonary tuberculosis, 579
Intestinal tuberculosis, radiographic and anatomical studies of, Comparative, 77
—— ——, treatment of, with codliver oil and tomato juice, The, 627
Intracerebral inoculation, Experimental tuberculosis by, 400
Intrathoracic tumors, treatment of, Roentgen-ray, 70

Jones, Oswald R., and Miller, James Alexander. Primary carcinoma of the lung, 1

Katz, Benjamin. The treatment of laryngeal tuberculosis with trichloracetic acid, 636
Kernkamp, L. M., and Myers, J. A. Tuberculosis among girls and boys in their teens, 509
